PdfHelperReader – Comprehensive User Manual (v2.4.0)

High-Performance Dual-Pane Reading, In-App Updates & Gutenberg Search Engine

1. Welcome & Introduction

PdfHelperReader is a specialized Android document reading environment designed for language learning, academic research, and deep study. It reads both PDF and EPUB documents, pairing your main book with a companion vocabulary sidecar PDF or an embedded Google Web Search browser in real-time.

2. Upper Main Ribbon Controls (Top Action Bar)

Button	Function & Detailed How-To-Use Guide
B	**Add Bookmark**: Tap to bookmark your current reading position. Captures creation timestamp and extracts the first 25 words from the book page.
BL	**Bookmark List**: Opens saved bookmarks dialog. Shows creation date/time and 25-word book page snippet previews for the current book.
Both/Book/Vocab	**Split Mode Toggle**: Cycles screen layout between *Both* (dual-pane split view), *Book* (full-screen main document), or *Vocab* (full-screen vocabulary pane).
Z	**Zen Mode**: Hides all toolbars for distraction-free reading, replacing them with a docked vertical right-edge control strip.
SR	**Synced Reading**: Toggles 1:1 real-time bidirectional scroll synchronization. When scrolling either the Book or Vocab pane, the other pane scrolls automatically in lockstep.
AS	**Auto Scroll**: Gentle continuous frame-by-frame auto-scroll calibrated at 1 viewport height / 5 minutes. Touch dragging is supported without stopping auto-scroll.
Sync	**Page Sync**: Instantly jumps the Vocabulary pane to match your current Book page using the exact *vocab_map* array.
G:Vocab / G:Google	**Vocab Mode**: Toggles lower pane between the companion Vocabulary PDF sidecar and the embedded Google Web Search browser.
T	**Theme Toggle**: Switches Dark/Light mode with high-contrast ColorMatrix PDF page color inversion for comfortable night reading.
R:C / R:P	**Reading Mode**: Toggles Continuous vertical scrolling (*R:C*) or fit-to-width Page-by-Page mode (*R:P*).
V:PDF / V:TXT	**View Mode**: Toggles vector PDF page rendering with transparent OCR text selection overlay (*V:PDF*) or plain text extraction (*V:TXT*).
H	**History**: Opens reading history showing First Opened & Last Closed timestamps for up to 1,000 documents, with a *Del vocab* button to delete associated vocabulary files.
O	**OCR Generator**: Applies Google ML Kit OCR to image-based or scanned PDFs, adding a searchable text layer saved to *Downloads/PdfHelperReader_files/*.
LOB	**Load Online Book**: Opens dual-tab online library (35 GitHub CDN classics + official Project Gutenberg search engine for 70,000+ books with EPUB and PDF download options).
OB / OV / LV	**Open Book / Open Vocab / Load Vocab**: Open PDF or EPUB book/vocab files via system file picker, or generate vocabulary PDF automatically.

Update	**In-App Update**: Checks GitHub latest release API, streams live download progress, and launches Android Package Installer seamlessly.
App Info	**Developer Info**: Displays developer profile (Ohid Sajol), GitHub repository links, and application overview.

3. In-App Updates & Developer Info

Tapping **Update** checks GitHub for new release versions, downloads the APK in the background with a live progress dialog, and launches the Package Installer. Tapping **App Info** displays developer details and repository links.

4. Gutenberg Books Search Engine (LOB Tab 2)

Tapping **LOB** opens the dual-tab Online Library. The **Gutenberg Books** tab features live search across 70,000+ books with direct **[EPUB]** and **[PDF]** download options. All search queries and results are preserved in memory so you can view books without losing your search!

5. Full EPUB eBook Support

PdfHelperReader unzips and converts eBooks on-demand into clean, typeset vector documents with large **18pt typography**. Converted files are cached permanently in *Downloads/PdfHelperReader_files/* so re-opening an EPUB loads **instantly in 0ms**.

6. 500 MB Storage Manager

An automatic **500 MB Storage Manager** monitors folder size, deleting older files step-by-step while protecting the latest active file in each category.
