PdfHelperReader – Comprehensive User Manual (v2.2.0)

High-Performance Dual-Pane Reading, EPUB Support & Online Library Streaming

1. Welcome & Introduction

PdfHelperReader is a specialized Android document reading environment designed for language learning, academic research, and deep study. It reads both PDF and EPUB documents, pairing your main book with a companion vocabulary sidecar PDF or an embedded Google Web Search browser in real-time.

2. Upper Main Ribbon Controls (Top Action Bar)

Button	Function & Detailed How-To-Use Guide
B	**Add Bookmark**: Tap to bookmark your current reading position. Captures creation timestamp and extracts the first 25 words from the book page.
BL	**Bookmark List**: Opens saved bookmarks dialog. Shows creation date/time and 25-word book page snippet previews for the current book.
Both/Book/Vocab	**Split Mode Toggle**: Cycles screen layout between *Both* (dual-pane split view), *Book* (full-screen main document), or *Vocab* (full-screen vocabulary pane).
Z	**Zen Mode**: Hides all toolbars for distraction-free reading, replacing them with a docked vertical right-edge control strip.
SR	**Synced Reading**: Toggles 1:1 real-time bidirectional scroll synchronization. When scrolling either the Book or Vocab pane, the other pane scrolls automatically in lockstep.
AS	**Auto Scroll**: Gentle continuous frame-by-frame auto-scroll calibrated at 1 viewport height / 5 minutes. Touch dragging is supported without stopping auto-scroll.
Sync	**Page Sync**: Instantly jumps the Vocabulary pane to match your current Book page using the exact *vocab_map* array.
G:Vocab / G:Google	**Vocab Mode**: Toggles lower pane between the companion Vocabulary PDF sidecar and the embedded Google Web Search browser.
T	**Theme Toggle**: Switches Dark/Light mode with high-contrast ColorMatrix PDF page color inversion for comfortable night reading.
R:C / R:P	**Reading Mode**: Toggles Continuous vertical scrolling (*R:C*) or fit-to-width Page-by-Page mode (*R:P*).
V:PDF / V:TXT	**View Mode**: Toggles vector PDF page rendering with transparent OCR text selection overlay (*V:PDF*) or plain text extraction (*V:TXT*).
H	**History**: Opens reading history showing First Opened & Last Closed timestamps for up to 1,000 documents, with a *Del vocab* button to delete associated vocabulary files.
O	**OCR Generator**: Applies Google ML Kit OCR to image-based or scanned PDFs, adding a searchable text layer saved to *Downloads/PdfHelperReader_files/*.
LOB	**Load Online Book**: Opens online library containing 35 classic books by Dostoevsky, Nietzsche, Wordsworth, and Byron, streamed directly on-demand from GitHub CDN.
OB / OV / LV	**Open Book / Open Vocab / Load Vocab**: Open PDF or EPUB book/vocab files via system file picker, or generate vocabulary PDF automatically.

3. Full EPUB eBook Support

PdfHelperReader unzips and converts eBooks on-demand into clean, typeset vector documents with large **18pt typography**. Converted files are cached permanently in *Downloads/PdfHelperReader_files/* so re-opening an EPUB loads **instantly in 0ms** with full feature parity.

4. Online Book Library & 500 MB Storage Manager

Tapping **LOB** accesses 35 classic unabridged books. The app includes an automatic **500 MB Storage Manager** that monitors folder size, deleting older files step-by-step while protecting the latest active file in each category.

5. Per-Pane Navigation & Header Controls (PaneBar)

• **Continuous Mode Clean PaneBar**: In *R:C* mode, redundant zoom and page flip buttons are hidden, displaying only the Page Jump Counter (e.g. *18 / 512*) and the horizontally scrollable Document Title.

• **Go to Page Dialog**: Tapping the page counter opens the page jump dialog directly.

6. Zen Mode & Night Reading

When Zen Mode (**Z**) is active, all toolbars are hidden and replaced with a right-edge control strip. Night mode (**T**) inverts colors dynamically using high-performance GPU filters.
